(3) Name of the company to which goods are supplied

(4) The European Union, country, group of countries or territory from which the goods originate.
For products originating in the European Union, "European Union" must be entered. If abbreviations should be used please do not use "EC" but "EU" to indicate the European Union. The name of a EU member state (e.g. Germany or France) may optionally be mentioned but then de requirement to obtain preferential origin must be fully met during the production in that single EU member State. In the goods are of preferential origin from a country with which the EU has preferential agreements (e.g.Switzerland, South Africa, etc.), this country must be declared as the country of origin.

* **For an up-to-date overview of GSP countries please contact the Chamber of Commerce.**
** **For Japan you must also refer to the applied origin criterion. For more information please contact the Chamber of Commerce.**
*** **PEM countries (Regional Convention): For this countries the already existing and somewhat stricter origin requirements of the Regional Convention are applied.**
**** **PEM countries (Transitional Rules). For this countries the adjusted and in many cases simplified origin requirements (transitional rules) are applied. The countries listed here have already implemented the Transitional Rules. For more information please contact the Chamber of Commerce.**

Point of attention:
The requirements to obtain preferential origin status are not the same for all contracting countries listed overleaf under (5).Therefore please check carefully which requirements apply and remove the names of the countries for which the requirement is not met. If the goods do not originate in the European Union (or a EU Member State) they do not meet the requirements for all countries mentioned but only a part of them. This is complex but very important to fill in correctly. If you have any questions about this please contact the Chamber of Commerce.

(6) To be completed, where necessary, only for goods having preferential origin status in the context of preferential trade relations with one of the countries with which pan-Euro-Mediterranean cumulation of origin is applicable:
This box is used to indicate whether or not cumulation has been used in order to obtain the preferential origin status of the goods according to the PEM Regional Convention. This means: using raw materials from, or doing parts of the production process, in other PEM Regional Convention countries. If so, enter the names of the countries involved, for example: "Cumulation has applied with Turkey and Tunisia". If the goods have obtained the preferential origin status by the production process that has taken place in only one country, fill in: "no cumulation applied".

(7) Give the dates.
The maximum period of validity of a supplier's declaration is 24 months. (A shorter period of validity is also allowed). The day of entry into force must be between 12 months before and 6 months after the date on which the declaration is issued.
